MEMORANDUM FOR: Deputy Director (Administration)

SUBJECT : Office of Technical Services Proposed T/O

1. As pointed out in the memorandum from Chief, Classification and Wage Division, Personnel Office, the proposed change in table of organization imposes a super-structure over the existing organization of the present Technical Services Staff. The request includes fourteen additional positions, five of which are in the category of super grades, that is, one GS-18 and four GS-16 positions. This increase, when added to the four approved super grade positions will make a total of nine super grade positions for this Office.

2. Since this is a major change in the organization of what was formerly known and budgeted as TSS, and since the Bureau of the Budget has consistently complained of the number of super grades approved by CIA, it is suggested that the matter be presented to the Bureau of the Budget at the same time the request for additional funds of [REDACTED] be released from the reserve for contingencies. This amount represents the difference between the amount budgeted for Fiscal Year 1953 [REDACTED] and the amount approved by FRC [REDACTED]
